

Winchester Trails Animal Trap now available

We now have a "medium" size animal trap available for residents to check-out. It was first used to trap two rabbits hanging around the clubhouse and pool areas. Now the trap is available and any member to borrow for up to two weeks at a time if other residents are waiting. The trap is 32" x 10" x 15" and comes with instructions.

Rabbits, cats, squirrels, opossum, mole and mice are just some of the animals that will fit into this medium size trap. Residents may require the use of the Internet to inquire about food, covering the trap or other questions. The instructions are provided and dictate safety information with illustrations on how to bait the trap. The trap should be cleaned before returning.

When you are ready to use the trap send an email to "info@winchestertrails.com". Your name will be added to the list or you can pick up the trap. Once an animal is caught, the resident is responsible for contacting Animal Control @ (281)999-3191 and working with them to have the animal picked up. For additional questions contact the same email address provided above. Since this service is "free" we hope residents will assist in keeping roaming animals off our streets and out of our subdivision. We are asking all residents to help keep our community safe.
